

HOW TO GET TESTED FOR MONKEYPOX

Residents who suspect they may have monkeypox and wish to get tested can:

- 1 Contact their healthcare provider
- 2 Call 2-1-1 (if they don't have a provider or health insurance)
- 3 Visit a Public Health Sexual Health Clinic

There are no specific approved treatments for monkeypox infections.

However, medication, such as antivirals, may be used to ease the symptoms of illness. In some cases, vaccine can be given to prevent the disease after exposure to the monkeypox virus.
